EDUCATION

- BSc Honours in Biomedical Science, University of Ottawa, 2022

Stephanie specializes in managing project traffic and client reporting to enable project delivery and transparent communication. Liaising closely with our government partners, she assists clients in leveraging IP funding opportunities to unlock new avenues for growth and facilitating innovation.

With experience in professional academic research environments, Stephanie is continuously looking for ways to improve established processes and procedures. Her research-based background equips her with the analytical and organizational acumen required for successful and valuable project management.
